Studebaker

More Power at Less Cost

It has taken Studehaker four years to improve, re-fine and perfect the wonderful Studehaker motor. It has been solved through the experience of 250,000 cars in the hands of owners. It is only through an evolution like this, that perfection of power in ratio to fuel con-sumption can possibly be developed.

There are no secret processes; no basic patents; no features of design that are unknown or prohibited by patents. The Engineer can use what he wishes, but he can only know how to use the best features by continually improving, refining and perfecting—through the experience of a motor in actual service.

This is why Studebaker can truthfully claim that the design of its motor is unsurpassed in simplicity, accessibility and power. By the refinement of reciprocating parts, vibration has been reduced to an almost unobservable minimum.

The bearing areas of the motor have been enlarged and increased, giving greater durability, more strength, still further insuring smooth, vibrationless operation. But you cannot appreciate the splendid POWER of the Studebaker car until you TRY it.

Then shall the King say unto them on his right hand.....

"I was an hungered, and ye gave me meat; I was thirsty, and ye gave me drink...... naked, and ye clothed me......"

Then shall they answer him, saying—"Lord, when saw we thee an hungered, and fed thee? or thirsty, and gave thee drink?or naked, and clothed thee?"

And the King shall answer..... "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me".

High Cost of Living Low Cost of Insurance

Midstall the increasing cost of living there's one thing that hasn't advanced,—that's the cost of Imperial Life policies. In fact, the an Imperial policy today requires no greater annual investment than a similar policy taken at a corresponding age a dozen years ago.

And the fact that the dividends to policyholders in The Imperial Life have shown a gradusi increase every year since the Company's inception makes this investment more attractive now than ever before.

Would you care to know the profit returns being made this year to holders of Imperial profit-sharing policies? Our booklet "The Voice of Experience" gives the information.

A copy will be sent to you post free if you ask for it.
